Base Website Package Components

Dedicated Performance Manager: Our Performance Managers are trained experts who deliver proactive digital marketing consultation focused on your success. Each month, your Performance Manager will deliver 1-2 key actionable insights you can use to impact your business in the short term.

Your Performance Manager makes sure you're using our technology to seize every digital marketing opportunity. We only recruit the best talent from across the country who specialize in marketing, advertising, and automotive.

Dealer.com Design Evolution: Our newly-designed and UX-driven Homepages, VDPs, and Search Results Pages deliver personalized, efficient and effective user experiences to consumers looking for their next vehicle or service.

Mobile-First Website: Dealer.com Websites use responsive technology—and are the most flexible in the industry. We optimize a shopper's experience based on the viewport and browser size, and through device-specific configuration when desired. Dealer.com Websites leverage the same design approach used by other eCommerce leaders, including Amazon.com and Lowes.com.

ControlCenter: Our newly redesigned ControlCenter anchors your digital marketing strategy, with a centralized back-end interface to help you manage your website, analyze your advertising and inventory performance, and maximize your investment—all from one, single-sign on platform.

New! Composer: Our intuitive, mobile and desktop website editor now features preview and scheduling capabilities.

New! Page Designer: Build dynamic, modern looking website pages with Page Designer, our completely redesigned page building tool that features robust and responsive layouts with fully-customizable preferences. Page Designer provides a flexible and powerful framework for designing dynamic website experiences.

Design Editor: Tap into a vast library of website customization options, which can be deployed in real-time.

MyCars™: A shopping cart for your website visitors, MyCars inspires shopper engagement by showing a list of recently viewed vehicles, with the option to save them and sign up for alerts.

Specials Campaign Manager: Easily create, manage and deploy creative assets promoting your incentives and specials to your Slideshow, Listings, and Specials pages. Specials can be deployed across your website or distributed across multiple rooftops.

Dealer.com and Cox Automotive Analytics: Data is a remarkable differentiator between Dealer.com and its competitors. Dealer.com partners with a centralized Cox Automotive analytics organization that grades how well Dealer.com is performing for their clients. Our Analytics Platform provides self-service transparency into your return on investment, helping you make ever-improving, informed decisions around what's working and what's not. From there, we deliver actionable insights on how you can maximize performance of the digital marketing investments that you are making, while eliminating waste and noise.

nGauge Quality Scoring System: nGauge is a proprietary measurement algorithm that assigns meaning to online consumer engagement activities and behaviors. nGauge

helps dealers focus their sales strategies on the right vehicles and the right visitors, and to invest in the most impactful digital marketing opportunities.

Flexible Pricing Configurations: Adjust your pricing display options to meet state sales regulations, OEM-specific compliance standards, or your dealership's own pricing preferences.

Toll-Free CallTracking: Convert every phone call into a lead in ControlCenter, including numbers for desktop and mobile, inventory, parts, and service.

Visualization Insights: Accessible through Composer, two integrated click-tracking tools provide easy insight into customers' shopping behavior. The heat map displays frequently viewed "hot spots", while a widget map tracks the number of clicks on specific features.

Inventory Lifecycles: Inventory Lifecycles provide centralized insight into every vehicle on your lot, the ability to forecast effectively, and the power to execute a profitable merchandising strategy accurately and instantly.

Core Package Features

The Dealer.com Retail Core and Premier Packages include all Base package features plus:

Experience Optimization: Experience Optimization is award-winning website personalization that uses data and automation to deliver real-time vehicle recommendations, along with inventory, parts and service specials, slides and banners to vehicle buyers or vehicle owners browsing your website.

- **Inventory Recommendations:** Serves recommended vehicles to your homepage and listings pages based on previous shopping behavior on Kelley Blue Book, Autotrader, some OEM websites, and previous site visits.
- **Dynamic Content Targeting:** Automatically reorders specials assets from Specials Campaign Manager based on shopper preferences and Cox Automotive consumer data, to ensure the most relevant, personalized experience.
- **Automated Incentives:** Subscribers will enjoy our Automated Incentives feature, which leverages data from your existing incentives feed to automatically create and display the best available incentive for a shopper aligned with their vehicle(s) of interest.
- **Fixed-Ops Personalization:** Drive more service leads from your Digital Storefront, leveraging Cox Automotive data to promote service content to consumers in-market for local service

Incentives Manager. Distribute and syndicate OEM and dealership incentives across your listings and details pages, as well as slides, banners, and coupons.

Core SEO: Included with Dealer.com's Core Website Package, Core SEO ensures the search engine basics are covered for your website, and reporting is in place and monitored to identify and address potential issues. Ongoing we'll optimize your site, including content and metadata, add schema.org markup, and address crawl errors.

Inventory Exports to Three Providers: Dealer.com will syndicate your dealership's inventory to three third-party providers.

Mobile Lot Capture: Instantly upload any vehicle on your lot to your website. Simply scan a VIN using this Smartphone application to upload vehicle information and generate flawless photos.

Video: CarFlix® HumanVoice inventory videos boost inventory engagement and are automatically generated, saving you time and resources. Custom videos can also be uploaded to ControlCenter and automatically converted for display on your website.

Site Services: A team of Dealer.com professionals create operational efficiency for your dealership by making updates per your specific strategy. Your dealership can facilitate and request changes based on the following:

- **Staff Page Management:** Management of staff pages to keep website up-to-date. (Dealer is responsible for providing the content for these changes.)
- **Basic Page Builds:** Building of one basic page via Composer each month. (Dealer is responsible for providing the content for these changes.)
- **Image Uploading and Posting:** Upload and post up to five images. Does not include slides, specials or inventory photos.

- **Video Uploading and Posting:** Upload and post videos for non-inventory related pages.
- **Business Hour Change:** Change of business hours on website.
- **Navigation Changes:** Adjustments to navigation. Does not include creation of new assets.
- **Featured Vehicles:** List of featured vehicles using your inventory list.
- **Lead Routing Rules:** Routing of leads to appropriate forms and email destinations.
- **Inventory Lifecycle Rules:** Creation of up to five Lifecycle rules per month. Does not include multi-tiered discounting or pricing updates.
- **Building Incentives via Incentives Manager:** Up to five different incentives per dealership. You provide all disclaimers and content.
- **Call Tracking Phone Number Management:** Adding or changing of call tracking numbers.
- **24/7 Dealer Support:** When you need answers and resolutions fast, call on Dealer Support. Our support professionals are here for you 24/7, and typically resolve technical issues quickly and easily.
